

Titan Fastener & Supply in recognition of Breast Cancer Awareness month is honored to partner with the Tennessee Breast Cancer Coalition (TBCC.ORG) to sell pink hard hats to general contractors, construction workers and companies throughout the Nashville and Middle Tennessee market.

As a local woman owned construction supplier, Titan believes in giving back to the community and this fundraiser is a great way to bring awareness to breast cancer. The pink hard hats will be seen by thousands of people as employees work at scores of job locations throughout the community. This message will continually spread as employees take their pink hard hats home each night and are seen by spouses, daughters, sisters, and neighbors.

"We're delighted to launch the 1st annual "Fight Titan Strong." We must all work together to Fight Breast Cancer and find a cure. Since our employees and clients are important to us, we're proud of their commitment to wear their pink hard hats throughout October to raise awareness for breast cancer and how women and men can help to protect themselves by getting screened." For every pink hard hat Titan sells a \$5 donation will be made to TBCC.
