

Metal Devil®

Metal Cutting Circular Saw Blades

Cut through steel and other tough metals faster than ever.

Unique combinations of metallurgy and blade configurations are tailored for peak performance in specific applications.

CUT COOL

Touch the freshly cut metal edges. You will be amazed to find how cool it is to the touch.

CUT FASTER

Cut through 6" x 1/4" thick steel in approximately 12 seconds.

CUT LONGER

Exceptional wear resistance. Make more cuts than any other metal cutting blade on the market today.

Delivering the **MOST CUTS-PER-CHARGE** in the market – so you can get the job done instead of wasting time and money waiting for batteries to charge.

Combining metal cutting technology with science to develop a new cutting performance for steel, stainless steel, and aluminum that separates the all new Metal Devil NXT® from the competition.

Blade Type	Applications
Metal Devil CL™ 	Designed to be optimized for use on cordless metal cutting circular saws.
Metal Devil NXT® Steel	Used to cut angle iron 1/4" (6mm) max thickness, steel plate, channel iron, I-beams, pipe and other ferrous metal shapes and parts.
Metal Devil NXT® Stainless Steel	Used to cut all stainless steel, including 1/4" or thinner stainless plate, or 1/8" or thinner wall stainless tube.
Metal Devil NXT® Aluminum	Used to cut all 3/8" or thinner aluminum parts including extrusions, plate, angle and grating.
Metal Devil® Thin Steel	Used to cut ferrous metals under 1/8" without bending the cut edge including corrugated roofing, sheet metal, conduit, and steel studs.
Metal Devil® Steel Studs (14" only)	Specially engineered to make quick, clean, accurate cuts on steel studs with square or miter cuts using 14" metal cutting saws.

Metal Devil

DESIGNED FOR **CORDLESS SAWS**

OPTIMIZED for CORDLESS SAWS

ADVANTAGE:

Delivers **MORE CUTS-PER-CHARGE**

BENEFIT:

Time and cost **SAVINGS**

APPLICATIONS

Steel / Stainless Steel / Aluminum

BLADE SIZES

6-1/2"

STAINLESS STEEL CUTTING

SPECIALIZED CARBIDE GRADE

ADVANTAGE:

Stays **COOL** during cutting

BENEFIT:

More wear resistance = **LONGER LIFE**

APPLICATION

Stainless Steel including 1/4" or thinner plate, or 1/8" or thinner wall tube

BLADE SIZES

7" - 14"

ALUMINUM CUTTING

BROADER RANGE of CUTTING APPLICATIONS

ADVANTAGE:

Cuts a **WIDE RANGE** of aluminum shapes and solids

BENEFIT:

Fewer changeovers

APPLICATION

Cut all 3/8" or thinner aluminum parts

BLADE SIZES

5-3/8" - 14"

STEEL CUTTING

SPECIALIZED CARBIDE GRADE

ADVANTAGE:

Stays **COOL** during cutting

BENEFIT:

More wear resistance = **LONGER LIFE**

APPLICATION

Ferrous metal shapes and parts
Angle, Channel, Pipe & more
3/8" max thickness

BLADE SIZES

5-3/8" - 14"

THIN STEEL CUTTING

BEST CHOICE for FERROUS METALS UNDER 1/8"

ADVANTAGE:

Unique tooth combination

BENEFIT:

Smooth, clean edges = **TIME SAVINGS**

APPLICATION

Corrugated roofing, sheet metal, and conduit

BLADE SIZES

5-3/8" - 14"

STEEL STUD CUTTING

SPECIFICALLY DESIGNED for METAL STUD CUTTING

ADVANTAGE:

Optimized design for reduced vibration

BENEFIT:

Virtually burr free finish = **LESS SECONDARY WORK**

APPLICATION

Metal Framing Studs

BLADE SIZES

14"
