ECLIPSE Q

Designed for High-Speed Angle Grinders

Alpha® Eclipse Q is ideal for general purpose use on common building materials such as masonry, concrete and tile. Together with the Quad Drive adapter, this blade is designed to fit on most of the high-speed angle grinders for "flush cutting" commonly found in the stone and construction industries. Similar in design to Alpha® Plus, Alpha® Eclipse Q is versatile and will cut tile, brick, block, concrete, slate and natural stone accurately and cleanly. Tile installers, masons and general contractors will find Alpha® Eclipse Q to be a reliable blade that will meet the challenges of cutting modern building products. The blade is cost effective, long lasting and provides consistent results without chipping. The Alpha® Eclipse Q has no equal when comparing price to performance.
