ALPHA®
VSP-120

Variable

Speed range between 500 - 2800 RPM

Safety

Splash Guard with inline GFCI

Powerful

Constant speed control with step-down gear

Alpha® has improved the popular VSP wet polisher series with new features to perform above and beyond your expectations! The new VSP-120 comes with variable speed control switch with an automatic speed feed-back system to maintain consistent RPMs with or without a load. This switch has also expanded the usable RPM range from 500 RPM to 2,800 RPM. The new RPM range reduces heat build-up when polishing Engineered Stone, which eliminates burning or scorching the work piece. Alpha® has also added a Splash Guard that can be trimmed to adjust the height for the best comfort and protection. Every stone fabricator should try the new VSP-120 variable speed wet polisher to achieve the best performance and high quality results.

VSP-120

PART NO.	DESCRIPTION
VSP-120	Variable Speed Wet Polisher - 120V
