

# WDP-120

The Ultimate Wet/Dry Variable Speed Polisher

The ultimate Polisher for Decorative Concrete Contractors. Introducing the Alpha® WDP-120, a Wet/Dry Variable Speed Surface Polisher designed for all decorative concrete applications, including edge polishing. This Hybrid Polisher provides the best quality polish on concrete countertop surfaces when used with water. The included Ecoguard attachment minimizes the amount of water splashed and the in-line GFCI will provide safety and protection. A vacuum cleaner can also be attached to the Ecoguard for dry concrete floor polishing without creating dust. By removing the Ecoguard's Front Cover and attaching the Magnetic Plate, you can polish right up to the wall. The heavy duty step-down gear system makes this Polisher powerful even when used at the lower rpm range. If you are a decorative concrete contractor, this is the perfect tool for you.
