MARBLE PROFILE WHEEL

The Alpha® Marble Profile Wheel is designed to profile and cut marble tile in one pass, unlike most profile wheels that only perform the profile action. The 6" wheel, which fits tub and tile saws, has been a popular item with tile installers for years. They have found it to be the ideal tool for cutting and profiling tile baseboards. The long life and smooth cutting action are two other reasons for its popularity. The wheel utilizes the same high quality diamonds and matrix best suited for wet cutting marble and agglomerated marble tile. Use the Alpha® Marble Profile Wheel to cut and profile in one pass to save time, money and reduce waste.

PART NO.	SIZE	MAXIMUM RPM	ARBOR
