

Ecocutter CRACK CHASING SYSTEM

Virtually Dust-Free!

With the increased popularity of concrete being used inside and outside the home, Alpha Professional Tools® has developed the Alpha® Crack Chasing Wheel for repairing concrete cracks. This V-cut style wheel produces a 1/2 inch wide, 70-degree, V-shaped groove for re-caulking and re-filling cracks. Made with direct sintered bond diamond segments on both sides, this wheel can cut cleanly and accurately while providing a long life.

The 4" wheel fits on the Alpha® Ecocutter, which is equipped with a built-in impeller that eliminates harmful dust particles by drawing the dust back to the dust bag, thus, eliminating unnecessary cleanup.

Use the Alpha® Crack Chasing Wheel and the Alpha® Ecocutter for the ultimate dust-free, portable solution!

PART NO.	SIZE	MAX RPM	ARBOR
DCC478	4"	14,500	7/8"

PART NO.	DESCRIPTION
